

A Remembrance of the life and Career of Dr. Kenneth R. Aalto

Please join the Geology Department and the North Coast earth science community in celebrating the life of Emeritus Professor Ken Aalto who passed away on June 15th. The Department salutes Ken's long service to the HSU Geology Department, his contributions to understanding our regional geology and the influence he had on generations of HSU Geology students. The remembrance features photos, videos and short talks by colleagues and former students. We will also officially name the field camp study tent "Aalto Hall," and establish a fieldwork scholarship fund in Ken's memory.

**Monday October 1, 5 pm
Green & Gold Room, Founders Hall
Humboldt State University**
