AI FOR GRANT WRITING:

Using AI for smarter, faster, more competitive Grant Proposals

This interactive session explores how AI tools (particularly ChatGPT) can enhance efficiency, clarity, and strategy in the grant writing process. Participants will learn practical applications for AI in brainstorming, drafting, editing, and tailoring proposals, as well as ethical considerations and limitations.

The session will include opportunities to experiment with AI prompts aligned to common funding mechanisms. *No prior experience with AI is required!*

**Oct 14, 2025
12-1pm**
