ANNOUNCING: Agricultural Research Institute (ARI) Grants for Agricultural Research in Academic Year 2023 - 2024

Agricultural Research Institute (ARI) funds are available to all tenured, tenure-track faculty, or research associates engaging in agricultural research. Preliminary indications are that approximately \$235,000 will be available for competitive allocation in fall 2023; this amount is subject to change depending on the budget. Proposals can request up to \$150,000 max.

ARI projects must have a strong link to agriculture, including forestry and aquaculture. The match requirement is 100% of the requested amount with at least 25% of this from cash and the remainder in-kind. Note that the cash match simply means that you may leverage an existing grant or contract (excluding grants supported from the CSU general fund) with funds not already committed to match associated with your ARI Proposal. As such, ARI proposals may be used to augment the activities associated with an existing grant (e.g., NSF, USDA, etc).

Projects should span a period of performance of up to 3 years between 7/1/2023 – 6/30/2026. All recipients of an ARI grant will be expected to submit an appropriate report of the grant activity upon completion, but no later than 90 days after completion. Individuals who are funded but neglect to submit a final report on their activities will be ineligible for future funding. Any individuals wishing to receive an extension of an existing ARI grant must submit an interim report indicating the extent to which the project has been accomplished. Recipients of ARI funding will be asked to discuss their research at an appropriate campus forum. Please see the ARI 2023/2024 RFP for a complete list of research priorities.

If you have questions regarding existing ARI grants, please contact Anthony Johnson at aj27@humboldt.edu.

The Deadline for submission of campus proposals is **Thursday, November 17, 2023 by 11:59pm**. For assistance with completing the application please contact one of our Pre-Award Specialists: Pia Gabriel at pg12@humboldt.edu, Kaz Wegmuller at jkw77@humboldt.edu, or Jocelyne Takatsuno at jt366@humboldt.edu.

** Please note -* SPF is requiring all ARI proposals to be Institutionally Routed before PI's [submit via InfoReady](#). The internal deadline to start your Institutional Routing is no later than **November 10, 2022**. This year includes the submission of Reference Letters, which is a newer requirement to the proposal process. Please reach out to your Pre-Award Specialist asap to coordinate both the routing and submission via InfoReady.

The Sponsored Programs Foundation will also be hosting a "ARI F.A.Q. Session" on Wednesday September 28th from 2:00-3:00pm in the Great Hall (located above the College Creek Marketplace). This will be an informational meeting where interested faculty can come and discuss their ARI Proposal ideas. SPF Staff, ARI Review Committee Members, and David Still (Executive Director, CSU ARI) will be available to answer questions. We hope you can join us!
