

# Cal Poly Humboldt is Introducing a **New** Institutional Review Board Submission Process!

## IRB Platform Upgrade

Over the past 8 months, we've been hard at work collaborating with InfoReady, the trusted platform provider that has supported our internal funding opportunities for over a decade. Together, we've developed a brand new platform for Institutional Review Board (IRB) submissions. You can access the new IRB submission platform on our [Engagement Hub](#).

## Training Resources

The IRB is currently offering in-person appointments available on Wednesdays & Fridays between 9am-2pm. Request an appointment by emailing [irb@humboldt.edu](mailto:irb@humboldt.edu).

The IRB also maintains open [Zoom Drop-In Hours](#) every Monday, Tuesday, and Thursday between 2:00-4:00pm where you can participate in live training sessions using the new system. Additional training resources will soon be available online as well at this [link](#).

## Streamlined Submissions

The new platform offers significant improvements from our previous Drupal system, providing enhanced functionality that promises to streamline the submission process for applicants, reviewers, and our dedicated IRB coordinator. With features designed to improve efficiency and user experience, we believe this new platform will greatly enhance the human subjects research approval process at Cal Poly Humboldt.
