

# Research Experiences for Undergraduates (REU): Sustainable Groundwater Resources

San Francisco State University and the California State University (CSU) offers a 9-week REU across California. Students collaborate with research mentors at host CSU campuses to develop projects that address groundwater and surface water sustainability.

- **Program Dates: June 7 – August 6, 2021**
- **Application Deadline: March 1, 2021**
- **Summer research experience with a stipend of \$5400**

- Integrated program of academic and professional development.
- Students are paired with a Research Mentor from one of over 10 CSU campuses.
