

The background of the poster is decorated with various illustrations of trillium plants. There are several large green leaves with prominent veins, and several flowers in shades of purple, pink, and dark red. The flowers have three petals and a central yellow and red center. The overall aesthetic is natural and botanical.

FACULTY LEARNING RETREAT

Join us for the **Trillium Project**, a faculty learning retreat that advances sustainability across the curriculum

Topics include: presentations from local resource experts, sustainability course designation, TEK and more!

Register for the **Trillium Project** here
